There is still in the hands of the Sinking Fund Committee \$535.17 uninvested, which amount might properly be deducted from the city's indebtedness. There has also been paid out of the treasury a note for \$232.05, properly chargeable to the Special Street Committee, and which will be refunded out of the proceeds of the \$6,500 street bonds, the whole of which have been considered in the above estimate of the city

The annual revenue of the city has been cut short, say about \$2,000, in consequence of the failure of the Manchester Iron-Works and the Manchester corn-mill to pay the usual rent, and also in consequence of the greater percentage of delinquent tax, the greater part of which, however, will yet be collected. All of which is respectfully submitted.

This admirable report of the city's financial condition was referred to the Finance Committee.

the only paper circulated in Manchester to lay before its patrons a comprehensive and at the same time simple statement of city's fiscal condition since its incorporation, either as a town or city. It may be a fitting finale to this article to

state that in addition to an annual revenue of some \$35,000, the city owns property, including its water-power, valued at nearly \$500,000. Its interest is promptly paid, and it is perfectly solvent. A perceptible advance has recently been made in the price rance has recently been made in the price of its bonds, and there is no better opening for safe investments in this country.
